FEATURES

- * **Digicolor** is a medium term sign film both available in translucent and opaque series making it ideal both for lighted signs and computer cut out decals.
- * Brilliant colours, excellent light transmission, good quality, stable property and excellent weatherability.
- * Conversion in many ways such as vinyl cutters, flat bed/ friction fed cutters, die cutting and screen printing.
- * Soft face film provides for easy cutting and weeding
- * Checked liner imprint facilitates measuring, conversion and application.
- * Excellent outdoor performance of up to 3 years.
- * Permanent acrylic based adhesive suitable for almost any substrate.

Applications

- *Lighted Signs
- *Exhibition Displays & Stands
- *Window Graphics
- *Point of Purchase & Promotional Displays
- *Vehicle Decals
- *Warning signs
